Subject: Indian Point 3 Nuclear Power Plant  
Docket No. 50-286  
Process Control Program

Dear Sir:

The Authority's letter dated June 17, 1983 served to transmit the Indian Point 3 Process Control Program (PCP). Your letter dated September 19, 1983 presented the NRC evaluation of the Indian Point 3 PCP and the current NRC PCP guidelines. These guidelines were clarified during a telephone conversation with Messrs. Polk and Meinke of your office.

Attachment 1 to this letter provides the revised PCP for Indian Point 3. The revised PCP presents the criteria necessary to ensure that the liquid wastes, resins and filters generated at Indian Point 3 are processed so that the appropriate regulatory requirements are satisfied.

Should you or your staff have any questions regarding this matter, please contact Mr. P. Kokolakis of my staff.

Very truly yours,

  
J. P. Bayne  
Executive Vice President  
Nuclear Generation
