Reference: Submittal of GE-Hitachi (GEH) Boiling Water Reactor Owners' Group (BWROG) Topical Report NEDC-33526P, "Assessment of NRC Generic Issue, GI-193", dated October 29, 2009

Enclosed please find the GEH BWROG Licensing Topical Report NEDC-33526, "Assessment of NRC Generic Issue, GI-193." The purpose of the transmittal is to replace the entire package that was submitted per reference above.

The reason for this re-submittal is to clear the cover letter of the "DRAFT FOR BWROG REVIEW" from the document. This note was erroneously left on the document after completion of the reviews and approval for submittal. There are no other changes to these documents.

SUBJECT: Submittal of GE-Hitachi (GEH) Boiling Water Reactor Owners' Group (BWROG) Topical Report NEDC-33526P, "Assessment of NRC Generic Issue, GI-193"

Enclosed please find the GEH BWROG Licensing Topical Report NEDO-33526, "Assessment of NRC Generic Issue, GI-193." The purpose of the report is to respond to NRC staff requests for information, which were provided informally to the BWROG.

The BWROG, after reviewing this issue and developing this report, suggests NRC use the information in the licensing topical report to re-evaluate GI-193 using the present process for screening generic issues. The BWROG believes that sufficient information is now available for NRC to close GI-193.

Enclosure 1 is the proprietary version of the Licensing Topical Report and the affidavit.
Enclosure 2 is a non-proprietary version of the report.

Please note that Enclosure 1 contains proprietary information of the type that GEH maintains in confidence and withholds from public disclosure. The affidavit contained in Enclosure 1 identifies that the information contained in Enclosure 1 has been handled and classified as

proprietary to GEH. The BWROG hereby requests that the information in Enclosure 1 be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17.
