

**John C. Brons**  
Senior Vice President  
Nuclear Generation

August 19, 1985  
IPN-85-43

Director of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Attention: Mr. Steven A. Varga, Chief  
Operating Reactors Branch No. 1  
Division of Licensing

Subject: Indian Point 3 Nuclear Power Plant  
Docket No. 50-286  
Extension of Emergency Response Capability Confirmatory  
Order Date

- References:
- 1) Letter from S.A. Varga to J.P. Bayne dated February 21, 1984 entitled: "Emergency Planning Confirmatory Order at the Indian Point Nuclear Generating Plant, Unit No. 3"
  - 2) Letter from J.P. Bayne to S.A. Varga dated August 3, 1984 (IPN-84-28) entitled: "Detailed Control Room Design Review Program Plan".
  - 3) Letter from S.A. Varga to C.A. McNeill, Jr. dated January 2, 1985.
  - 4) Letter from J.P. Bayne to S.A. Varga dated June 29, 1984 (IPN-84-20) entitled: "Regulatory Guide 1.97, Revision 2 Implementation Program".

Dear Sir:

Reference 1 served to transmit the Emergency Response Capability Confirmatory Order, which confirms the Authority's commitments to implement the requirements of Supplement 1 to NUREG-0737. This letter serves, in part, to request an extension of the date by which the Detail Control Room Design Review (DCRDR) summary report is to be submitted.

Reference 2 transmits the Authority's program plan for the Indian Point 3 DCRDR. Reference 2 stated that a summary report of the Indian Point 3 DCRDR including a schedule for the implementation of any necessary modifications will be submitted prior to startup from the Cycle 4/5 refueling outage. Reference 2 included a scheduling of the

1/0

DCRDR activities in bar chart format which indicated that the summary report would be submitted by October 31, 1985, the then anticipated startup date from the Cycle 4/5 refueling outage. During a November 19, 1984 meeting with members of the NRC staff concerning the DCRDR, it was noted that the date of startup from the Cycle 4/5 refueling outage will be earlier than previously anticipated. Notwithstanding the earlier anticipated startup date, the submittal of the DCRDR summary report by October 31, 1985 was deemed acceptable by the NRC staff, as noted in the meeting minutes transmitted by Reference 3. As a major portion of the DCRDR review team is actively involved in the present Cycle 4/5 refueling outage, the evaluation of the identified human engineering deficiencies is being delayed. Accordingly, it is requested that the Emergency Response Capability Confirmatory Order be revised to reflect a DCRDR summary report submittal by October 31, 1985.

Reference 4 transmitted the Authority's program for the implementation of Regulatory Guide 1.97, Rev. 2. Reference 4 stated that additional assessments/analyses needed to be performed to determine if deviations from the regulatory guide are justifiable for a number of items. These assessments/analyses were to be completed by September, 1985. However, due to manpower constraints associated with the Cycle 4/5 refueling outage, the assessments/analyses will not be completed until November 15, 1985. The final date for compliance with Regulatory Guide 1.97, Rev. 2 is not being changed. The required modifications will be completed during the Cycle 5/6 refueling outage.

Should you or your staff have any questions regarding this matter, please contact Mr. P. Kokolakis of my staff.

Very truly yours,

  
John C. Brons  
Senior Vice President  
Nuclear Generation

DOCKET NO(S). 50-286

Mr. John C. Brons  
Senior Vice President - Nuclear Generation  
Power Authority of the State of New York  
123 Main Street  
White Plains, New York 10601

SUBJECT: INDIAN POINT NUCLEAR GENERATING UNIT 3

The following documents concerning our review of the subject facility are transmitted for your information.

- Notice of Receipt of Application, dated \_\_\_\_\_.
- Draft/Final Environmental Statment, dated \_\_\_\_\_.
- Notice of Availability of Draft/Final Environmental Statement, dated \_\_\_\_\_.
- Safety Evaluation Report, or Supplement No. \_\_\_\_\_, dated \_\_\_\_\_.
- Notice of Hearing on Application for Construction Permit, dated \_\_\_\_\_.
- Notice of Consideration of Issuance of Facility Operating License, dated \_\_\_\_\_.
- Monthly Notice; Applications and Amendments to Operating Licenses Involving no Significant Hazards Considerations, dated \_\_\_\_\_.
- Application and Safety Analysis Report, Volume \_\_\_\_\_.
- Amendment No. \_\_\_\_\_ to Application/SAR dated \_\_\_\_\_.
- Construction Permit No. CPPR- \_\_\_\_\_, Amendment No. \_\_\_\_\_ dated \_\_\_\_\_.
- Facility Operating License No. \_\_\_\_\_, Amendment No. \_\_\_\_\_, dated \_\_\_\_\_.
- Order Extending Construction Completion Date, dated \_\_\_\_\_.
- Other (Specify) Bi-weekly notice covering period August 14, 1985. Expiration date for hearing requests and comments September 13, 1985.
