Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Implementation of Integrated Schedules for
Plant Modifications (Generic Letter 85-07)

References: 1. NRC Generic Letter 85-07, dated May 2, 1985
regarding the same subject.
2. NYPA letter, J.C. Brons to D.B. Vassallo
and S.A. Varga, dated July 17, 1985,
(JPN-85-17, IPN-85-37) regarding the same
subject.

Dear Sir:

In response to Reference 1, the Authority's intentions concerning development and implementation of a comprehensive Integrated Living Schedule (ILS) for the James A. FitzPatrick (JAF) and Indian Point 3 (IP-3) Nuclear Plants was transmitted by Reference 2. That letter included estimated dates for completion and implementation of an ILS for the JAF and IP-3 plants of mid-1986 and September 1986 respectively. The purpose of this letter is to provide the status and current projections for implementation of the ILS for JAF and IP-3.

The Authority has commenced ILS development and efforts continue toward its completion. However, the estimated completion dates for both the JAF and IP-3 ILSS have been revised. The Authority's current estimate for the completion of the JAF ILS is early 1987. The IP-3 ILS is expected to be completed and initially implemented approximately six months later. Any further updates on our ILS plans will be provided by telephone to the respective Project Managers.

Should you or your staff have any questions regarding our plans, please contact Messrs. J. A. Gray, Jr. (JAF) and P. Kokolakis (IP-3) of my staff.

Very truly yours,

J. C. Brons
Senior Vice President
Nuclear Generation
