Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Submission of Electrical Schematic Showing Reactor
Trip Bypass Breaker Position Status Lights

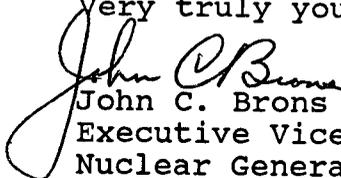

- Reference: 1. Safety Evaluation Report (SER), "Generic Letter
No. 83-28, Item 4.3 Reactor Trip Breaker Automatic
Shunt Trip," dated March 15, 1985.
2. Letter from Mr. J.P. Bayne (NYPA) to Mr. S.A.
Varga (NRC), dated April 16, 1985.

Dear Sir:

This letter transmits the updated electrical schematic requested by Reference (1). The subject schematic shows the position status lights in the control room for the reactor trip bypass breakers. In Reference (2), the Authority agreed to install these position indicating lights during the 1987 scheduled refueling outage and submit an updated schematic following completion of the modification package. The installation of the bypass breaker status lights was completed during the Cycle 5/6 Refueling Outage (ending 9/87).

Should you or your staff have any questions regarding this matter, please contact Mr. P. Kokolakis of my staff.

Very truly yours,

John C. Brons
Executive Vice President
Nuclear Generation
