Dear Mr. Bridges:

In response to your letter dated May 3, 1991, I have enclosed with this letter the four 5-1/4" diskettes that you sent me, which now contain the latest copy of the PWR Generic Fundamentals Examination Bank. The diskettes contain copies of all the files which make up the Pressurized Water Reactor Plant GFES bank. Two types of files are on the diskettes. The files with the "TXT" extension contain the all questions which have been asked on previous GFES examinations and have been through the validation process. The files with the "ALL" extension contains all PWR bank questions that may be used and validated on future GFES examinations. Although most of the questions contained in these files will be used as they appear in the bank, some questions may be altered to improve the question, and some new questions may be added to fill gaps in the bank.

If after reviewing these files, you wish to submit comments suggesting improvements to questions, new questions, or deletion of questions, please forward these comments to:
