Attention: Mr. H. B. Norris
Manager of Quality Control

Gentlemen:

The Atomic Energy Commission is willing to consider your application for performing radiography using an 80-curie cobalt 60 source outside of your betatron enclosures provided that you submit the necessary information as outlined in our letter of August 23, 1968. In the absence of factual information pertaining to items affecting radiation safety, we are unable to give you any advice concerning your problems in this area.

Sincerely,

James C. Malaro
