INDIAN POINT 3 - ENVIRONMENTAL STATEMENT DELAY

Reference: Your note dtd 7/24/73

Thank you for advising me that the new estimate for the environmental hearing on Indian Point 3 was not based on the two-month slip in the December 11, 1973 FES.

Please transmit the change request associated with the environmental statement delay to me so that I can amend the analysis to reflect what actually caused the delay in the DES, and its subsequent impact which will delay the FES to December 11, 1973.
