Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
State Pollutant Discharge and Elimination
System (SPDES) Permit

Dear Sir:

Indian Point 3 Non-Radiological Environmental Protection Plan, Section 3.2 requires that violations of the SPDES permit be reported to the NRC by the submittal of a copy of the reports required by the SPDES Permit. The NRC Staff has interpreted this provision as requiring the appropriate notification of excursions from the SPDES Permit effluent limits, regardless of whether or not the excursion resulted in a Notice of Violation issued by the New York State Department of Environmental Conservation (DEC). Accordingly, Enclosure 1 to this letter provides a copy of the cover letters transmitting the monthly Indian Point Station Discharge Monitoring Reports for the period of July 1987 to December 1987, which were submitted to the DEC. Each cover letter is accompanied by excerpts from the reports, which detail the excursions from the SPDES Permit effluent limits.

Should you or your staff have any questions regarding this matter, please contact Mr. P. Kokolakis of my staff.

Very truly yours,

John C. Brons
Executive Vice President
Nuclear Generation
