

CHIEF FINANCIAL
OFFICER

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

December 10, 2009

Technical Specifications Task Force
11921 Rockville Pike, Suite 100
Rockville, MD 20852

Dear Members of the TSTF:

On behalf of the U.S. Nuclear Regulatory Commission (NRC), I am responding to your October 28, 2009, letter requesting a fee exemption under 10 CFR 170.11(a)(1)(iii) for all fees associated with the NRC's review of Technical Specifications Task Force (TSTF)-517, "Allowance for Non-TS Cooling/Ventilation Systems Degradation on Support System Operability." Your request meets the fee exemption criteria; therefore, I have granted your request, as explained below.

Your fee exemption request states that TSTF-517 (hereinafter referred to as the "Traveler") is a means for exchanging information for the purpose of supporting the NRC's generic regulatory improvements or efforts. The NRC staff has reviewed your submittal and concluded that the Traveler is part of an effort to provide deferred entry into Limited Condition for Operation (LCO) for degraded conditions involving design features that are not specifically addressed by technical specifications.

If you have any technical questions regarding this matter, please contact Ms. Michelle Honcharik at 301-415-1774. Please contact Ms. Rebecca Erickson of my staff at 301-415-7126, for any fee-related questions.

Sincerely,

A handwritten signature in blue ink that reads "J. E. Dyer".

J. E. Dyer
Chief Financial Officer
