Jon -

Earlier today (December 14, 2009), the NRC staff received two copies of Uranium One's submittal addressing safety evaluation report open issues identified in the July 7 and August 8, 2009 conference calls. One copy is in the process of being added to ADAMS.

The submittal included a cover letter dated December 10, 2009, which identified eight remaining radiological issues from the July and August conference calls. The NRC staff understands that Uranium One plans to address these remaining open issues within the next 30 days.

If you have any questions, I can be reached at 301-415-0724.

Doug
