

December 15, 2009

Mr. Joshua E. Daehler
Radiation Control Officer
Radiation Control Program
Department of Public Health
Bureau of Environmental Health
Schrafft Center, Suite 1M2A
529 Main Street
Charlestown, MA 02129

Dear Mr. Daehler:

This refers to the draft report for the 2009 Integrated Materials Performance Evaluation Program (IMPEP) review of the U.S. Nuclear Regulatory Commission (NRC) Headquarters (HQ) Sealed Source and Device (SS&D) Evaluation Program that you sent to us with your letter addressed to Dr. Charles L. Miller, Director, Office of Federal and State Materials and Environmental Management Programs, dated November 19, 2009. We have reviewed the draft report and are providing comments as mark-ups in the draft report in the enclosure.

We appreciate the opportunity to participate in an independent review of HQ's implementation of the SS&D Evaluation Program. The review provided an opportunity for new insights on how we might improve our performance, as well as an opportunity to discuss with Agreement State representatives those initiatives which could result in improved effectiveness and efficiency in the materials program overall. We have already initiated actions to improve the quality of our records in the NRC's electronic filing system.

I want to convey my staff's appreciation for the team's willingness to seek feedback from HQ staff and for the professional manner in which the review was conducted. If you have any questions, please feel free to contact me at 301 415-6250.

Sincerely,
/RA/
Jack W Foster, Chief
Inspection Branch
Division of Materials Safety
and State Agreements
