Dear Sir or Madam:

RE: Amendment to NRC license # 52-24983-01. *03030523*

Please add the following Nuclear Gauges to our License. Please note that these gauges are currently in storage and that they are not being used. We understand that sources that are in storage only require a leak test once every ten years and inventory is required every six months. Prior to placing the nuclear gauges into service, a current leak test will be done on the equipment.
