## PREFACE TO SUPPLEMENT NO. 5

Supplement 5 to the Indian Point Unit No. 2 final Safety Analysis Report consists of responses to questions from the Atomic Energy Commission. The questions were contained in a letter to Arthur N. Anderson of Consolidated Edison Company of New York from Peter A. Morris, Director of the Division of Reactor Licensing, dated August 4, 1969 and a letter to William J. Cahill, Jr. of Consolidated Edison Company of New York from Peter A. Morris dated November 13, 1969. The responses consist of questions and answers to be added to Volume 5 of the Report in the proper order behind Tab II. Page changes for the Report are included with this supplement.

The supplement responds to several questions concerning Chapters 1, 4, 6, 11, 12 and 14 of the Report. Later Supplements will complete the responses to the questions contained in the August 4, and November 13, 1969 letters. Also included with this supplement is a Tab III to be placed in Volume 5 of the FSAR immediately preceeding the WEDCO Project reorganization report issued with Supplement 4. This preface page should be inserted in Volume 5 of the Report immediately following the preface to Supplement No. 4.
