AEC Docket No. 50-247

APPLICATION FOR AMENDMENT  
TO TECHNICAL SPECIFICATIONS

Consolidated Edison Company of New York, Inc., as holder of Facility Operating License No. DPR-26, hereby requests that Technical Specifications 3.3 and 3.10 set forth in Appendix A to that license be amended. This request for a change in the technical specifications is submitted in accordance with Section 50.46(a)(2) of the regulations of the Commission.

The proposed technical specification changes are set forth in Attachment A to this Application. An evaluation in accordance with Paragraph (a)(1) of Section 50.46 is set forth in Attachment B. This evaluation also demonstrates that the proposed changes do not involve a significant hazards consideration and will not cause a significant change in the types or a significant increase in the amounts of effluents or any change in the authorized power level.
