Re: Indian Point Unit No. 2
Docket No. 50-247

Dr. Peter A. Morris, Director
Division of Reactor Licensing
U. S. Atomic Energy Commission
Washington, D. C. 20545

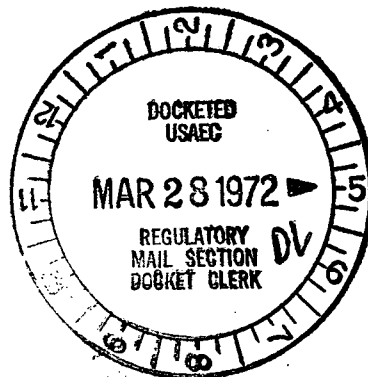

Dear Dr. Morris

This letter is to inform you of a change in the design of the drain system to the moisture separator reheaters on Indian Point Unit No. 2, as depicted in the FSAR, and to request your concurrence that this design change is acceptable. The moisture separator reheaters, the drain system and the proposed changes are all part of non-safety related plant components and systems. The enclosure discusses both the design and implementation of this change.

Very truly yours

William J. Cahill, Jr.
Vice President
