Re: Indian Point Unit Nos. 1 and 2
NRC Docket Nos. 50-3 and 50-247

Dear Mr. Knighton:

Reference is made to Con Edison's letter dated January 31, 1975, from Mr. Carl L. Newman to Mr. Edson Case, Acting Director of Reactor Licensing, Office of Nuclear Reactor Regulation, which was submitted pursuant to Section 5.6.E.1 of Appendix B (Environmental Technical Specification Requirements) to Facility Operating License DPR-26. In item C. of that transmittal, entitled Thermal Plume Model Verification and Mapping (Near and Far Field), reference was made to the November, 1974 routine monthly thermal survey.

Transmitted herewith for your information are nine(9) copies of the following report, which describes the November 1974 routine monthly thermal survey.

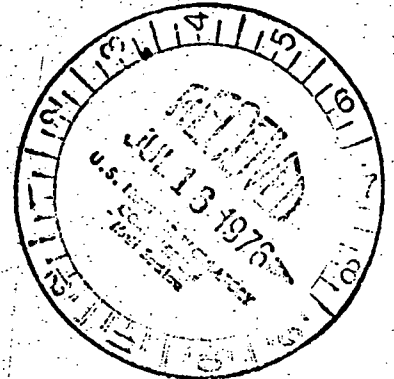

"Indian Point Unit No. 2 Routine Monthly Thermal Monitoring for November 1974,"
Report No. 5. Prepared by Dames & Moore
and Consolidated Edison Company of New York,
Inc.

One additional copy of the above report has been forwarded to Dr. Richard M. Rush (ORNL).

Very truly yours,

lcp.hk
