Director of Nuclear Reactor Regulation
ATTN: Mr. A. Schwencer, Chief
Operating Reactors Branch No. 1
Division of Operating Reactors
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Schwencer:

→ In accordance with our February 27, 1978 and May 4, 1978 submittals to the Regulatory Staff, enclosed are forty (40) copies of Westinghouse Topical Reports WCAP-9312 (proprietary) and WCAP-9313 (non-proprietary) entitled, "Determination of Loose Part Mass from Indian Point Unit 2 Metal Impact Data." These reports provide the metal impact monitoring system (MIMS) qualification work that Westinghouse has performed.

Topical Report WCAP-9312 contains proprietary information of Westinghouse Electric Corporation. In conformance with the requirements of 10CFR Section 2.790 of the Commission's regulations, we are also enclosing an affidavit from Westinghouse dated July 27, 1978 for withholding from public disclosure the proprietary information contained in WCAP-9312. This document sets forth the basis on which the information may be withheld from public disclosure by the Commission. Any correspondence with respect to the affidavit should be addressed to Mr. Robert A. Wiesemann, Manager, Licensing Programs, Westinghouse Electric Corporation, Box 355, Pittsburgh, Penn. 15230. As stated above, WCAP-9313 is non-proprietary and is, therefore, available for public disclosure.

Should you or your staff have any additional questions, please do not hesitate to contact us.

AFFIDAVIT

COMMONWEALTH OF PENNSYLVANIA:

SS

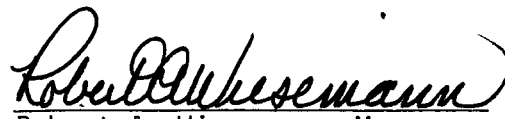

COUNTY OF ALLEGHENY:

Before me, the undersigned authority, personally appeared Robert A. Wiesemann, who, being by me duly sworn according to law, deposes and says that he is authorized to execute this Affidavit on behalf of Westinghouse Electric Corporation ("Westinghouse") and that the averments of fact set forth in this Affidavit are true and correct to the best of his knowledge, information and belief:

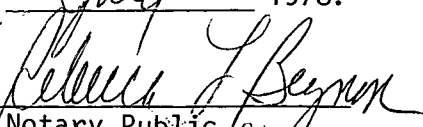

The proprietary material of Westinghouse for which withholding is being requested and which is being transmitted by Consolidated Edison Company of New York, Inc., - WCAP-9312, "Determination of Loose Part Mass From Indian Point Unit 2 Metal Impact Data" - is of the same technical type as that proprietary material previously submitted by Westinghouse Letter No. NS-CE-1643, Eicheldinger to Stolz, dated December 30, 1977, concerning the results of the control rod worth program.

Justification for withholding such information from public disclosure has been provided by Westinghouse in a previously submitted affidavit and application for withholding, AW-77-54 dated December 30, 1977, approved by the Commission on February 28, 1978, and a copy of which is attached. The averments in that affidavit apply equally to the above referenced Indian Point Unit 2 report, and are incorporated herein by reference.

Further the deponent sayeth not.

Robert A. Wiesemann, Manager
Licensing Programs

Sworn to and subscribed
before me this 27 day
of July 1978.
