Director of Nuclear Reactor Regulation
ATTN: Mr. Robert W. Reid, Chief
Operating Reactors Branch No. 4
Division of Operating Reactors
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Reid:

As requested by members of your staff, enclosed are four (4) copies of the piping and instrumentation drawings listed in Attachment A. Please be advised that these are preliminary drawings since they are presently undergoing revision to reflect our upgraded inservice inspection and testing program. Nevertheless, these drawings are being provided to assist in expediting the Regulatory Staff's review of the Indian Point Unit No. 2 Inservice Inspection and Testing Program, submitted on August 3, 1977 and supplemented on September 22, 1977 and October 25, 1977.

Should you or your staff have any further questions regarding our inservice inspection and testing program, we will be pleased to discuss them with you.

Very truly yours,
