Subject: RE: Processing Fee for PCB4.04

Thanks for the phone call and email. You are correct, I no longer want to pursue the addition of Cs 137 on the license renewal of license PCB4.03. You are also correct with the fact that I will work toward submitting the remainder of the applicable fee ($3830) for this renewal. I will be in contact next week with this issue. I appreciate your effort in this issue.

Have a Happy Holiday.

Thanks,

Subject: Processing Fee for PCB4.04

Jim:

Per our telephone conversation today, in light of the expense associated with adding Cs-137 to your license PCB4.03, you are no longer interested in doing this. However, given that you still need to add 3 destinations (Gabon, Ghana and South Africa) via the subject amendment application, the total processing fee is $4,600. You have sent a partial payment of $770, therefore, an additional $3,830 ($4,600 less $770) is now due. Please submit this payment so we can continue processing your application. As you stated, you will submit the additional fee after Christmas.
