Dear Mr. Grier:

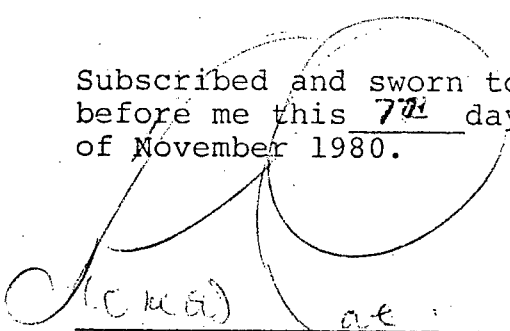

The purpose of this correspondence is to advise you of the criteria to be used and our schedule for the re-evaluation of masonry walls at Indian Point 2 requested by item 2b of NRC Bulletin 80-11. Our current schedule for completing this study is May 1981 with a final report to be submitted to the NRC by June 15, 1981.

The Company has retained the services of Computech, Inc. of Berkeley, California for the re-evaluation of masonry walls. Currently, the Company is reviewing general criteria similar to that prepared by Computech for other utilities. Criteria, specific for Indian Point 2, together with the associated justification will be submitted by December 31, 1980.

The information is being provided pursuant to 10 CFR 50.54(f). Should you or your staff have any questions regarding this matter please contact us.

Very truly yours,

Subscribed and sworn to
