Subject: Open Issue Response Update

Ron,

Uranerz is still working on the Open Issue/Confirmatory Items from the letter dated October 13, 2009. As for submitting the responses, Uranerz anticipates that it will be sometime in January 2010. Because of the meeting between the NRC and industry regarding health physics topics, the issuance of the draft SEIS, and the delay of some lab results that will be included in the responses, we have been delayed in meeting our original submittal estimate of the end of November 2009.

If you have any questions regarding this matter, please contact me.

Mike
