APPLICATION FOR CONSTRUCTION PERMIT AND FACILITY LICENSE, CONSOLIDATED EDISON COMPANY OF NEW YORK, INC., DOCKET NO. 50-247

Transmitted herewith is a copy of an application filed by Consolidated Edison Company of New York, Inc., for a construction permit and facility license to authorize construction and operation of a pressurized water nuclear reactor having a net electrical capacity of approximately 873 megawatts derived from a thermal capacity of approximately 2,758 megawatts. The proposed reactor, designated by the applicant as the Indian Point Station Unit No. 2, is to be located adjacent to and just north of the existing Indian Point Station Unit No. 1 on the applicant's site in the Village of Buchanan, Westchester County, New York.

Please review the application and provide Mr. Charles A. Lovejoy, Office of the Controller, with your comments as to the reasonableness of the stated fuel requirements for a reactor of this type and power level. A copy of your comments should be sent to me.
