APPLICATION FOR CONSTRUCTION PERMIT AND FACILITY LICENSE, CONSOLIDATED  
EDISON COMPANY OF NEW YORK, INC., DOCKET NO. 50-247

Transmitted herewith is a copy of an application filed by Consolidated Edison Company of New York, Inc., for a construction permit and facility license to authorize construction and operation of a pressurized water nuclear reactor having a net electrical capacity of approximately 873 megawatts derived from a thermal capacity of approximately 2,758 megawatts. The proposed reactor, designated by the applicant as the Indian Point Station Unit No. 2, is to be located adjacent to and just north of the existing Indian Point Station Unit No. 1 on the applicant's site in the Village of Buchanan, Westchester County, New York.

If additional information is required in order to complete your review of the applicant's financial qualifications to engage in the proposed activity, please let us know. We presume you will want a copy of the applicant's 1965 Annual Report at such time as it becomes available. We also note that the applicant has not furnished any construction cost data.
