CONSOLIDATED EDISON COMPANY OF NEW YORK, INC., APPLICATION FOR  
CONSTRUCTION PERMIT AND FACILITY LICENSE, DOCKET NO. 50-247

This is to advise that the Division of Reactor Licensing has received an application from Consolidated Edison Company of New York, Inc., dated December 3, 1965, for a construction permit and facility license to authorize construction and operation of a pressurized water nuclear reactor having a net electrical capacity of approximately 873 megawatts derived from a thermal capacity of approximately 2,758 megawatts.

The proposed reactor, designated by the applicant as the Indian Point Station Unit No. 2, is to be located adjacent to and north of the existing Indian Point Station Unit No. 1 on the applicant's site in the Village of Buchanan, Westchester County, New York. The earliest and latest dates for completion of construction are estimated to be January 1, 1969 and June 1, 1969, respectively.
