ATTACHMENT 2

February 19, 1980

Dr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Indian Point/Zion Near Site Study Report

Indian Point Station - Unit 2 - NRC Docket Nos. 50-247
Indian Point Station - Unit 3 - NRC Docket No. 50-286
Zion Station - Units 1 & 2 - NRC Docket Nos. 50-295 & 50-304

Dear Dr. Denton:

Enclosed is the report of the Indian Point/Zion Near Site Study requested by the NRC. This report represents the combined efforts of Consolidated Edison Company, the Power Authority of the State of New York and Commonwealth Edison Company and our consultants in response to the NRC request on December 5, 1979 for a sixty day "crash" effort. This report is also submitted to fulfill the NRC confirmatory order to "Submit not later than March 1, 1980 the results of a review of possible permanent plant modifications and procedures to further reduce the potential of a severe reactor accident and resultant radiation releases."

Sincerely,

William J. Cahill, Jr.
Vice President
Consolidated Edison Co.
of New York, Inc.

James F. Davis
Principal Nuclear
Engineer (Staff)
Power Authority of
the State of
New York

D. L. Peoples
Director of Nuclear
Licensing
Commonwealth Edison
