**BELL BEND NUCLEAR POWER PLANT
ALTERNATIVE SITE EVALUATION
REVISION 1
BNP-2009-411 Docket No. 52-039**

- Reference:
- 1) Letter from R.R. Sgarro (PPL) to U.S. NRC Document Control Desk, "Bell Bend Nuclear Power Plant Alternative Site Evaluation," dated September 9, 2009.
 - 2) Letter from R.R. Sgarro (PPL) to U.S. NRC Document Control Desk, "Bell Bend Nuclear Power Plant Environmental Report Section 9.3, Alternative Sites," dated November 25, 2009.

The purpose of this letter is to provide Revision 1 of the Bell Bend Nuclear Power Plant (BBNPP) Alternative Site Evaluation. Revision 0 of the BBNPP Alternative Site Evaluation was transmitted by Reference 1 on September 9, 2009. Revision 1 corrects the Seedco site 7-day average flow in a 10-year period (7Q10) in Appendix C and inconsistencies that were identified during finalization of the revised BBNPP Environmental Report (ER) Section 9.3.

Enclosure 1 provides the BBNPP Alternative Site Evaluation Revision 1, dated December 2009 that documents the site selection process utilized to confirm/validate the Bell Bend "Proposed Site." Changes are denoted by revision bars.

The revised evaluation affects the current text contained ER Section 9.3, transmitted by Reference 2, on November 25, 2009. ER Section 9.3 will be revised to reflect the Alternative Site Evaluation, Revision 1, in a future revision of the COLA. Enclosure 2 provides a markup of the affected ER Section 9.3.4.

The commitment contained in this submittal is the future revision of the COLA as indicated in Enclosure 2.
