Subject: **Correction for Indian Point Energy Center Registration of Unit 2 Spent Fuel Cask Use Letter NL-09-134**  
Indian Point, Unit 2  
Docket Nos. 50-247 & 72-51  
License No. DPR-26

References: 1. Indian Point Energy Center Registration of Unit 2 Spent Fuel Cask Use, letter NL-09-134, dated October 5, 2009.

Dear Sir or Madam;

The purpose of this letter is to correct a letter Entergy sent to the NRC on October 5, 2009 (Reference 1) which registered the use on September 11 and 29 of the Unit 2 fourth and fifth dry fuel storage casks. The fuel contained in these casks are from Indian Point Energy Center (IPEC) Unit 2 Nuclear Power Plant, Reactor License No. DPR-26, Docket No. 50-247, using Holtec HI-STORM 100 spent fuel cask systems that were placed into storage on the IPEC ISFSI pad [Docket No. 72-51].

Reference 1 stated that the fourth and fifth casks for Unit 2 placed on the IPEC ISFSI pad were loaded to Amendment #2 of the Holtec CoC #1014 and *corresponding Holtec CFSAR Revision 6*. The Holtec CFSAR revision for the loading of the fourth and fifth casks cited should have been Revision 4.

This error has been entered into the IPEC Corrective Action System as CR IP2-2009-04960.

Entergy is making no new commitments in this letter. Should you have any questions regarding this matter, please contact Mr. Timothy J. Salentino, Superintendent Dry Fuels Storage, at Indian Point Energy Center at (914) 734-6421.

Sincerely yours,

Robert Walpole  
Manager, Licensing  
Indian Point Energy Center
