Mr. Harold D. Thornburg,  
Chief  
Field Support & Enforcement Branch  
Directorate of Regulatory Operations  
U.S. Atomic Energy Commission  
Washington, D.C. 20545

Dear Mr. Thornburg:

Last February you sent me a copy of the documents mentioned in your attached letter. Do you have a copy of the final report mentioned in your letter that you can send me. Also, the November 30 letter on the sequence leading to the pipe rupture is ~~a~~ only a supplement to a November 14th letter from ConEd. I would appreciate it very much if you would send me the final report, ~~a~~ which presumably analyzes the ~~xxx~~ cause of the pipe failure, and the Nov. 14th letter. I am trying to ~~fi~~ learn from the reports and letters information relating to the likely modes or mode by which a heavy pipe like that would ~~fi~~ fail.

Sincerely yours

Richard E. Webb
