Stephen Q. Shafer, M. D.
285 Riverside Drive
New York City, New York 10025

Dear Dr. Shafer:

Your letter dated August 15, 1974 to the Director of Regulation has been referred to me for reply. In your letter, you express concern about potential seismic effects on the Indian Point nuclear facility.

Our staff has been actively reviewing seismic records with respect to the Ramapo fault and the Indian Point facility and will prepare a report on their analysis and findings. We will inform you of the results of this study when available. We expect the study will be completed this month.

Sincerely,

Original Signed By
K. R. Goller
