Dear Executive Secretary Romine:

Enclosed please find an original and fifteen (15) copies of the joint application of our clients UniStar Nuclear Energy, LLC and UniStar Nuclear Operating Services, LLC (Co-Applicants) for a Certificate of Public Convenience and Necessity to construct a new nuclear power plant at Calvert Cliffs in Calvert County, Maryland. Also enclosed please find Constellation Energy's check in the amount of \$10,000.00 payable to the Public Service Commission for the required filing fee.

Included within the application materials, please find (1) a legal application; (2) a technical report; and (3) a 5-volume set of environmental reports. You will also find attached in Appendix B to the technical report a CD containing two videos prepared by AREVA NP Inc., the designer of the proposed nuclear power plant. These videos contain an excellent introduction to the AREVA U.S. EPR reactor design and may be viewed using the Microsoft Windows Media Player. In addition to these hard copy sets, you will also find fifteen (15) electronic versions of all documents on compact discs. All of these documents may be made available for public inspection.
