RE: Third Update to Disclosures Pursuant to 10 C.F.R. § 2.336; *STP Nuclear Operating Co.*
(South Texas Project Units 3 and 4), Docket Nos. 52-012 and 52-013

Pursuant to 10 C.F.R. § 2.336, the agreement among the parties dated September 10, 2009, and the Initial Scheduling Order dated October 20, 2009, STP Nuclear Operating Company (STPNOC) is providing the third update to its disclosures with respect to Intervenor's Contention 21, as restated and admitted by the Atomic Safety and Licensing Board (Board) on August 27, 2009 (LBP-09-21), and Contentions 8, 9, 14, and 16, as restated and admitted by the Board on September 29, 2009 (LBP-09-25).

STPNOC's disclosures consist of the following:

- Enclosure 1 is reserved for the names, addresses, and telephone numbers of the persons upon whose opinion STPNOC will base its positions on the contentions and upon whom STPNOC may rely as a witness, and a copy of the analyses and authorities upon which they base their opinions. STPNOC has not yet identified witnesses for any hearing on the contentions, and will update Enclosure 1 when it has identified its witnesses.
- Enclosure 2 provides a description, by category and location, of all relevant non-privileged documents, data compilations, and tangible things in the possession, custody, or control of STPNOC that are relevant to the admitted contentions in this proceeding. If you determine that you would like a copy of any of these documents, please inform me of which documents you would like, and I will provide a copy to you.

- Enclosure 3 provides an index of documents, data compilations, or tangible things in the possession, custody, or control of STPNOC that may be relevant to the contentions but contain proprietary-related or otherwise protected information. Upon request by the NRC Staff, STPNOC will provide a copy using the procedure in 10 C.F.R. § 2.390. If the Intervenor desire a copy, STPNOC will work with the Intervenor to develop a mutually acceptable proposed amendment to the Protective Order for issuance by the Board. STPNOC will provide any requested proprietary documents to the Intervenor after the Board has entered an amended Protective Order.
- Enclosure 4 provides an index of relevant documents that are otherwise publicly available.

In order to compile Enclosures 2, 3, and 4, STPNOC made a reasonable good faith search of its records since the previous disclosures filed on December 1, 2009. The attached affidavit attests that all relevant materials identified by this search have been disclosed, and that the disclosures are accurate and complete as of December 15, 2009. Additions to the logs since the last disclosures are highlighted.

In the event that STPNOC identifies additional relevant documents or the witnesses for any hearing on the contentions, STPNOC will update these disclosures on the 1st day of each month (subject to 10 C.F.R. § 2.306(a)), as required by 10 C.F.R. § 2.336(d), the agreement among the parties dated September 10, 2009, and the Initial Scheduling Order dated October 20, 2009.

STPNOC has been conservative in identifying documents for inclusion in Enclosures 2, 3, and 4. By identifying documents on those Enclosures, STPNOC does not necessarily concede that the documents are in fact relevant or material to the admitted contentions.

Sincerely,

Signed (electronically) by Stephen J. Burdick

AFFIDAVIT

1. My name is Scott Head. My title is Manager, Regulatory Affairs for South Texas Project, Units 3 & 4. Working with the attorneys for STP Nuclear Operating Company (STPNOC), I have been responsible for managing the searches, collection, and compilation of documents, data compilations, and tangible things to comply with the mandatory disclosure requirements in 10 C.F.R. § 2.336.
2. This Affidavit relates to the disclosures that STPNOC is providing on January 4, 2010 in the above-captioned proceeding pursuant to 10 C.F.R. § 2.336, the parties' joint agreement on mandatory disclosures, dated September 10, 2009, and the Initial Scheduling Order, dated October 20, 2009.
3. A reasonable good faith search was conducted of documents, data compilations, and tangible things in the possession, custody, or control of STPNOC for the types of information specified in 10 C.F.R. § 2.336(a). As provided in 10 C.F.R. § 2.336(c), this search was conducted based on information and documents reasonably available to STPNOC:
 - a. The searches encompassed both electronic and paper documents.

- b. The searches encompassed both South Texas Project (STP) Units 3 and 4 project-related files and documents in the possession and control of STPNOC employees who have worked on the STP Units 3 and 4 project.
 - c. The searches also encompassed documents, data compilations, and tangible things in the possession and control of the vendors and contractors who have supported the STPNOC combined license application to the extent that STPNOC has rights to these documents, data compilations, and tangible things.
 - d. Searches did not encompass documents in the possession of individuals who did not work on the STP Units 3 and 4 project or files unrelated to the STP Units 3 and 4 project.
- 4. Enclosure 2 provides the index of relevant non-privileged, non-protected documents, data compilations, and tangible things that were located as a result of this search.
- 5. Enclosure 3 provides the index of relevant documents, data compilations, and tangible things containing proprietary-related or otherwise protected information.
- 6. Enclosure 4 provides the index of relevant documents, data compilations, and tangible things that are publicly available.
- 7. With respect to admitted Contentions 8, 9, 14, and 16, the parties agreed on October 2, 2009 to limit disclosures based on the following criteria:
 - a. STPNOC will produce all relevant documents, data compilations, or other tangible things for these contentions that have been generated or collected as part of the STP Units 3 and 4 project and are in STPNOC's possession, custody, or control.

- b. In addition to the above information, STPNOC will produce compilations or summary reports of relevant information related to operation of STP Units 1 and 2, such as information on radioactive particulates in the Main Cooling Reservoir (MCR) sediment, that have been prepared during the last five years and are in the possession of STP Units 1 and 2 personnel. For example, STPNOC will produce documents such as the Annual Environmental Operating Report, the Annual Radioactive Effluent Release Report, and the Annual Water Use Report.
 - i. STPNOC does not need to produce: 1) raw data or samples from environmental monitoring for STP Units 1 and 2; 2) documents that only describe activities related to operation of STP Units 1 and 2; or 3) documents that do not provide compilations of data regarding water quality and radionuclide concentrations in the MCR, adjacent surface waters, or groundwater.
 - c. Following the initial disclosures on these contentions, the Intervenor may request production of other documents that are relevant to the admitted contentions.

STPNOC will provide documents to the Intervenor in response to any reasonable requests.
8. STPNOC has been conservative in identifying documents for inclusion in Enclosures 2, 3, and 4. By identifying documents on those Enclosures, I do not necessarily concede that the documents are in fact relevant or material to the admitted contentions.
9. These disclosures are accurate and complete as of December 15, 2009.

The statements made above are true to the best of my knowledge, information, and belief.

I declare under penalty of perjury that the foregoing is true and correct.

Executed in Accord with 10 C.F.R. § 2.304(d)

ENCLOSURE 1

STPNOC WITNESSES

The name and, if known, the address and telephone number of any person, including any expert, upon whose opinion the party bases its claims and contentions and may rely upon as a witness:

Response:

STPNOC has not yet identified the persons that it may rely upon as its witnesses. STPNOC will update this disclosure when it has identified such persons.

A copy of the analysis or other authority upon which that person bases his or her opinion:

Response:

Currently, STPNOC bases its position on the following sections of the Environmental Report (ER) for STP Units 3 and 4 and the references cited therein:

- Contentions 8, 9, and 14 - - ER §§ 2.3, 3.3, 3.5, 5.2, and 5.4, and the revisions to ER §§ 2.3.1, 5.2, and 5.4 identified in November 11, 2009 and November 23, 2009 letters to the NRC.
- Contention 16 - - STPNOC's September 28, 2009 response to Request for Additional Information No. 05.10-4, which includes revisions to the ER.
- Contention 21 - - ER §§ 7.1, 7.2, and 7.3, and the new ER § 7.5S identified in a November 10, 2009 letter to the NRC.

STPNOC will update this disclosure when it has identified the persons that it may use as witnesses and the analyses and authorities upon which they base their opinion.
