Subject: Withdrawal of Application for Revalidation of the TN-MTR Certificate
Attachments: tn-mtr withdrawl ltr.pdf

Michele,

As noted in the attached November 27, 2009 letter, TN International has formally withdrawn their application to DOT to revalidate the French Certificate F/357/B(U)F-96(Ct) for packages consisting of the TN-MTR packaging loaded with either MTR-52S or MTR-52SV2 baskets and their respective radioactive contents #4 and #9, and with the standard or "SEC" lid.

As noted in their letter, they plan to resubmit an application to us next year for revalidation of a forthcoming update to the French certificate which will include the above as well as an expansion of the contents to include disassembled plates and failed fuel.

At that time they will address the issues raised in your November 5, 2009 Request for Additional Information.

Accordingly, please closeout your current efforts in response to our April 8, 2009 request to review that certificate.

Michael Conroy
