

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**
REGION II
SAM NUNN ATLANTA FEDERAL CENTER
61 FORSYTH STREET, SW, SUITE 23T85
ATLANTA, GEORGIA 30303-8931

January 6, 2010

Florida Power and Light Company
ATTN: Mr. Seth Duston
Training Manager
St. Lucie Nuclear Plant
6501 South Ocean Drive
Jensen Beach, FL 34957

SUBJECT: ST. LUCIE – OPERATOR LICENSING OPERATING TEST APPROVAL
05000335/2009302 AND 05000389/2009302

Dear Mr. Duston:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing operating test at the St. Lucie Nuclear Station.

The U.S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license applications submitted in connection with this operating test and separately provided a list of approved applicants to your office. The NRC staff will administer operating tests to these individuals, as applicable, during the week of January 11, 2010. Note that any examination waivers and application denials have been addressed in separate correspondence.

This operating test has undergone review by my staff and representatives responsible for operator training at your facility. Based on this review I have concluded that the operating test meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. If you determine that this operating test is not appropriate for licensing operators at your facility, contact me at (404) 562-4550.

Please contact your Chief Examiner, Mr. Rick Baldwin, at (404) 562-4642 if you have any questions or identify any errors or changes in license level (RO or SRO) specified for each applicant.

Sincerely,

/RA/

Malcolm T. Widmann, Chief
Operations Branch
Division of Reactor Safety

Docket Nos.: 50-335, 50-389
License Nos.: DPR-67, NPF-16
