**Subject:** Your NRC License Renewal Application

Mr. Smith:

Your renewal application does not include all of the information that we need to complete our review of the application.

- You can provide the required information by completing Appendix B to NUREG 1556, Vol 1 Rev 1. This document may be obtained from NRC web site: <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/r1/>. (You just need to check appropriate blocks in Appendix B to complete it).
- NRC licenses do not list individuals as authorized users, but only requires the licensees to ensure that the users have received the required training prior to using the licensed material. Additionally, Tennessee is an Agreement State and we can not list on the license any storage location in Tennessee. You can only use licensed material in areas where NRC has the jurisdiction. You will need license from the State of Tennessee to store radioactive material in the state.
- The licensee name on your current NRC license is Southern Consulting, LLC. However, your application lists a different name as the licensee. Please provide an explanation of this change -- namely, is this change a result of change of ownership of the company, and if so, you need to provide the information requested in Section 5 of NUREG 1556, Vol 1, Rev 1.

You can fax the requested information at (610) 337 5269, and please reference control number 144315. Please feel free to call me at (610) 337 5364 if you have any questions. Thanks

Sattar Lodhi
