U.S. Nuclear Regulatory Commission, Region 1
475 Allendale Road
King of Prussia, PA 19406-1415

Dear Sir or Madam:

This letter serves as notification that the University of Maine has a 10 CFR 20.304 radioactive waste burial site located in Greenbush, Maine. This site has been thoroughly evaluated by an independent engineering firm and is subject to an elaborate monitoring protocol.

I look forward to applying the NRC screening protocol (apparently under development at this time) to this site in order to determine the appropriate decommissioning procedure.

Should you require additional information or clarification, please don't hesitate to call or write.

Sincerely,

John Moriarty, Radiation Safety Officer
