**ACTIONS REQUESTED AND ISSUES**

The petitioner requests that the NRC take enforcement action against Florida Power and Light Company (FPL), the licensee for TP, Units 3 and 4, by issuing a Notice of Violation and Civil Penalty in the amount of \$1 million and a Confirmatory Order modifying FPL's operating licenses DPR-31 and DPR-41 for TP Units 3 and 4, as described in the January 11, 2009, 10 CFR 2.206 petition request.

BASIS FOR THE REQUEST

On or about January 17, 2008, the licensee, FPL, completed a self-assessment of the TP, Unit 3 and 4 facility, which included an assessment of the TP Employee Concerns Program (ECP). The purpose of the self-assessment was for FPL to understand and address weaknesses in the ECP. The petitioner states that FPL has continually engaged in retaliatory actions against its own employees who raise safety concerns at TP Units 3 and 4, and that the enforcement actions sought, including the confirmatory order, will dissuade FPL from further violations of NRC regulations and requirements under 10 CFR 50.7, "Employee Protection." The petitioner contends that such action will protect the public health and safety by eliminating the chilling effect that currently exists at TP Units 3 and 4 and fostering a work environment in which employees can freely raise safety concerns directly to the NRC and FPL management without fear of retaliation.
