Review of Luminant Comanche Peak Unit 3 & 4 COLA, Revision 1 to the COLA

The issues outlined in this document are **required corrections** that must be addressed before re-submitting. The Submission will not be accepted until the issues are corrected.

Public Submission will need to be corrected before both Public and Non-Public submissions will be accepted.

Public Submission

Reference Documents

Incorrectly Submitted Information	Required Correction
Packing Slip's Reference Document Section refers to the document with a document number "MITSUBISHI.DCD.NP" Revision Number 2. This document is DCD's non-public submission.	Change Document Number to "MITSUBISHI.DCD.P" Note: This correction is based on the assumption that "MITSUBISHI.DCD.P" Rev 2 was intended to be used for this submission. Note: There are references to the DCD through out the submission. They might need to be reviewed/revised if Non-Public DCD was used for submission preparation. No corrections are necessary if Public DCD was used for submission preparation.

Links in the documents

Incorrectly Submitted Information	Required Correction
Links are broken: Some of the links in the documents are broken, e.g., URLs to the outside sources, internal document links to the reference section, and misc section links.	The impact on review will be negligible, no corrections are required. (Confirmed with COLA PM)
