**Subject:** FW: CORAR Testimony to TLLRWDC on Deleted Products

Jim,  
Attached are materials on deleted products presented to the Texas LLRW Disposal Compact Commission at a public meeting on Thursday, December 17, 2009. This material is an expanded version of the information provided to the NRC in October. In Table 1 we have added a few more products to the list of deleted products provided in October and have added Table 2 listing over 200 addition products that were deleted for multiple reasons including radwaste difficulties. This information supersedes the October presentations. We shall be glad to answer any questions concerning this information. We appreciate NRC's interest in these issues. Len.
