SUBJECT: MILLSTONE POWER STATION, UNIT NO. 1 – TWENTY FIVE DAY
RESPONSE TO NRC ORDER IMPOSING INCREASED CONTROLS (EA-09-
204) AND TO NRC ORDER IMPOSING FINGERPRINTING AND CRIMINAL
HISTORY RECORDS CHECK REQUIREMENTS FOR UNESCORTED ACCESS
TO CERTAIN RADIOACTIVE MATERIAL (EA-09-205)

Dear Mr. Heacock:

By letter dated December 17, 2009, you requested an extension of time to fully respond to EA-09-204 until February 15, 2010, and an extension of time to implement measures to comply with that Order. We have reviewed your request for an extension of time to fully respond to the Order and determined that your justification is reasonable. We are hereby granting your request for an extension of time to fully respond to that Order until February 15, 2010. Regarding your request for an extension of time to implement measures to comply with the Order, we believe that it is premature to extend the implementation period until you have determined how you will comply with the Order, therefore we are deferring a decision on that request until you have provided your full response and provided a specific date for compliance. We also note that by separate letter dated December 17, 2009, you replied to EA-09-205. Our review of that response will be addressed by separate correspondence.

Sincerely,

/RA/

Larry W. Camper, Director
Division of Waste Management
and Environmental Protection
Office of Federal and State Materials
and Environmental Management Programs
