Subject: FW: Plant Vogtle Expansion

Folks;

Just an FYI from the vicinity of Vogtle. Thanks.

Scott

comments: I'll forward info to other organizations regarding this, however some things you should know before licensing this project. (btw, I am very pro on this project). The county inwhich Plant Vogtle is not only underserved with broadband internet, nearby towns and rural areas have spotty if not totally non-existent phone service (landlines & wireless).

For potential emergency situations, updates on evacmaps, etc..citizens would not be able to receive email updates & maps, automatic cell warnings or even phone calls. The town of Girard, and 10 miles around the current nuclear plant rarely has consistent land line service for days on end. this is 2009, we're way past loud sirens that can't be heard over air conditioning units. once the protest groups realize this they will have a hey day.
