FACILITY: Kewaunee Power Station  
SUBJECT: SUMMARY OF DISCUSSION ON JANUARY 11, 2010, BETWEEN DOMINION ENERGY KEWAUNEE, INC. AND THE U.S. NUCLEAR REGULATORY COMMISSION TO DISCUSS DUPLICATE RAI NUMBER (TAC NO. MD9408)

On December 16, 2009, the U.S. Nuclear Regulatory Commission (NRC or the staff) conducted a telephone conference call (teleconference) with representatives from Dominion Energy Kewaunee, Inc. (DEK). The result of that teleconference was the staff's request for additional information (RAI) letter dated December 16, 2009 (ML093310443).

As a followup to the teleconference, it was noted that a duplicate RAI tracking number had been assigned to one of the RAIs in the letter dated December 16, 2009. The staff asked that DEK update their records to reflect the correct numbers for the RAI as follows: the updated number for RAI 3.4.2.3-1 (in NRC letter dated December 16, 2009) is now 3.4.2.3-3.

As a result of the discussions, DEK agreed to update their records to reflect the current numbering information. A list of discussion participants is enclosed.
