## TELEPHONE CONVERSATION RECORD

Date: 01/11/2010  
Time: various

Mail Control or Report No(s): 144334 License No(s): 44-30912-01 Docket No(s): 03036563

Name of Licensee: R.O.V. Technologies, Inc.  
Name of Participant(s): Jack Judge, President/CEO R.O.V. Technologies, Inc. and Laurie Kauffman, HP  
Telephone No.: 802-254-9353  
Subject: Request for additional information re: amendment request, dtd Dec 4, 2009.  
(NOTE: This will be used as the Documents Title in ADAMS)

In amendment request, dated December 4, 2009, the License Number on the cover letter was incorrect. Also, R.O.V. requested additional storage as depicted on the attached drawing. The drawing was not attached. R.O.V. will send via facsimile a revised cover letter and simplified copy of the final drawing today.

What is the reason for the expansion and what is being superseded? R.O.V. Technologies, Inc. (R.O.V.) stores sea-lands in an exterior fenced storage area, located adjacent to the existing warehouse structure, for certain power plant facilities. These power plant facilities have requested that R.O.V. store more sea-lands. In order for R.O.V. to meet this request, R.O.V. needs to increase the exterior storage area by about 1000 square feet. The additional outside storage area will be located at the front of the existing warehouse structure.

Why is R.O.V. requesting an amendment to the license and why are the drawings tie-downs to the license? Previous NRC reviewers had requested that the drawings be included in the initial license request. Subsequent amendments have maintained the drawings as tie-downs to the license. R.O.V. does not object to the drawings as tie-downs to the license.

The possession limits will not be increased therefore, no Financial Assurance will be required.

Mr. Judge also stated that he will submit an amendment request to change the Radiation Safety Officer (RSO) and add the RSO and the Alternate RSO to the license as Authorized Users. He plans to submit the request today.

**Action Required:** Submit conversation record into ADAMS; submit corrected cover letter and drawing into ADAMS; continue license review; and completed license amendment request as soon as possible.
