Name of Licensee: ECS Mid-Atlantic, LLC

Name of Participant(s): Edward Dorsey, Field Service Manager & Sattar Lodhi

Telephone No. 301 668 4303

Subject: Confirmation of no leaking sources

(NOTE: This will be used as the  
Documents Title in ADAMS)

The licensee's request did not explicitly include that the storage location in West Virginia was to be removed from the license as authorized storage location. Additionally, the letter was signed by RSO. I called the RSO to request the following information:

1. What was his position at the company besides being the RSO;
2. Is it a request to remove the facility in West Virginia, from the license as authorized storage location?

The RSO stated that he was Manager of Field Services in addition to being the RSO, and they have removed all material from the West Virginia site and want to remove it as authorized storage location.

I requested him to send a letter confirming that the facility did not have any contamination. He stated that they had tested the gauge for leakage regularly while it was stored there and that no leakage was identified. I requested that he send a letter confirming this.
