JAN 11 2010

Mickey Mantle  
Lake Asphalt Paving and Construction, LLC  
1237 East Hwy. 54, Unit B  
Camdenton, MO 65020

Dear Mr. Mantle:

This refers to: (1) your application dated October 7, 2009, for a new NRC license authorizing use of moisture density gauges; and (2) your discussions with Edward Kulzer, NRC Materials Inspector, during Mr. Kulzer's Pre-Licensing Visit to your facility on January 4, 2010. During conversations between you and Mr. Kulzer, it is our understanding that you informed Mr. Kulzer of your plans to dissolve the company and reorganize at a later date. As a result, you are no longer pursuing a new license with NRC at this time.

Based upon these discussions, we have voided your application dated October 7, 2009, under mail control number 318632. "Void" means that we have taken your application out of our active database. This action is without prejudice to future resubmission of a license request. Please note that if you resubmit your request for a new NRC license, please reference the original mail control number 318632.

If you have any questions or require clarification on any of the information stated above, you may contact me at (630) 829-9752.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael G. Herr", written over a horizontal line.

Michael G. Herr, CHP  
Materials Licensing Branch
