Re: Surry Power Station, Final Signed Waste Shipment Record

Dear NESHAPS Asbestos Coordinator:

By letter dated December 19, 2008 (attached), Dominion notified the Environmental Protection Agency that Surry Power Station had not received the signed waste shipment record (WSR) for the November 13, 2008, shipment of radiologically contaminated asbestos waste (RCAW), shipment number D2008-12. Pursuant to 40 CFR 61.150 (d)(4), this serves as notification that Dominion's Surry Power Station has received a disposal site copy of the WSR for shipment number D2008-12, from Energy Solutions, Clive, Utah (attached).

If you have any questions or concerns, please do not hesitate to contact Michael Isper of Electric Environmental Services at (804) 273-2988.

Sincerely,

A handwritten signature in cursive script that reads "Karen Canody for".

Cathy Taylor
Director, Electric Environmental Services

December 19, 2008 NESHAP Notification Letter

Pamela F. Faggert
Vice President and Chief Environmental Officer

Dominion Resources Services, Inc.
5000 Dominion Boulevard, Glen Allen, VA 23060
Phone: 804-273-3467

December 19, 2008

NESHAP Asbestos Coordinator
Pesticides/Asbestos Programs & Enforcement Branch
EPA Region III – 3LC62
1650 Arch Street
Philadelphia, Pennsylvania 19103-2029

To the NESHAP Asbestos Coordinator:

This letter is being submitted pursuant to 40 CFR 61.150 (d)(4) and in accordance with your letter dated July 1, 1994 confirming that Dominion's procedure for tracking low-level radiologically contaminated asbestos waste (RCAW) is acceptable for maintaining compliance with the National Emissions Standards for Hazardous Air Pollutants (NESHAP) regulations. This is official notification that Surry Power Station (1) has not received a copy of the waste shipment record (WSR) signed by the owner or operator of the designated waste disposal site within 35 days since the waste was shipped off-site (inquiry requirement time period) and (2) will not receive the WSR within 45 days (notification requirement time period).

On November 13, 2008, RCAW (Shipment D2008-12) was shipped from Surry Power Station to Duratek Services' Bear Creek Facility, Kingston, Tennessee. The facility acknowledged receipt on November 17, 2008. The waste was scheduled to undergo interim processing at Bear Creek then shipped to Energy Solution's Clive Disposal site in Clive, Utah for final burial as indicated on the WSR that accompanied the shipment. The signed WSR indicating final disposal was not returned to Surry Power Station within 35 days, therefore, a search was initiated to determine the status of the waste shipment.

Prior to the 35th day after shipment, Surry Power Station contacted Duratek Services, Inc. and inquired about waste shipment D2008-12. Surry was told that interim processing is taking longer than expected and the waste is still located at the Bear Creek Facility. The RCAW will not be processed until after the 35th day and it will not be buried at Energy Solutions Clive Disposal site until after the 45th day, December 28, 2008, as required.

Copies of the written notification dated November 17, 2008, from Duratek Services, Inc. to Surry Power Station and the WSR that accompanied Shipment D2008-12 are attached for your review. Once Surry Power Station receives the final waste shipment records, EPA will be notified that the outstanding WSR has been received and closed.

If you have any questions or concerns, please do not hesitate to contact Karen Canody at (804) 273-3893 or Gleness Knauer at (804) 273-2988.

Sincerely,

Pamela F. Faggert
