Subject: American Precision Testing Laboratories (NRC License 53-29233-01, docket no. 030-37231)

This licensee requested termination of NRC License 53-29233-01 in July 2009 and the license has not been terminated yet. It is my understanding that American Precision owes fees to the NRC. Adam Stasuk, President and Radiation Safety Officer for this license, no longer lives in the U.S. With the help of NRC's Office of Investigation we have been able to obtain contact information for Mr. Stasuk in Canada. On a separate email I have told Mr. Stasuk to contact Brenda Brown to arrange fee payment and provided him with small entity certificate form in the event he wants to claim such status.
