Troy B. Conner, Jr.

INDIAN POINT 2

50-247

September 12, 1966

Late on the afternoon of September 9, we received the letter from Larry Bogart, Director, the Conservation Center, dated 9-8-66. The letter petitions to intervene in the captioned proceeding.

Today Howard and I met with HLP (and cleared the matter with Bud Schur as well) and agreed on the following position:

1. Oppose the petition as not meeting the Commission's rules for showing good cause for late intervention.
2. Oppose on the ground that there is no showing of how the interest of the Conservation Center will be affected.
3. In the event Bogart seeks to intervene as an individual living in the New York area, would not oppose too strongly on the ground of showing of interest.

I called Bogart to point out that his request had come too late for us to file written responses. I suggested, therefore, that the matter be brought up for decision at the prehearing conference tomorrow. He agreed stating he had planned to attend anyway. I advised him to where I was staying in the event he had any questions.
