IN THE MATTER OF

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.)  
(Indian Point Station Unit No. 2)

DOCKET NO. 50-247

*(Surreal)*

ORDER PERMITTING INTERVENTION

The State of New York, acting by and through the Director of its Office of Atomic and Space Development, filed, in accordance with Section 2.714 of the Commission's Rules of Practice, a petition for leave to intervene in the foregoing captioned proceeding. The petition alleges that the interest of the State in the health and safety of its people, as represented by the Director, in atomic energy matters, and particularly as pertaining to the nuclear power plant proposed in this proceeding, reflects a substantial interest that warrants intervention in this proceeding.

Neither Consolidated Edison Company, the applicant herein, nor the Regulatory Staff of the Commission opposed the petition by the State of New York.

WHEREFORE IT IS ORDERED, pursuant to Section 2.714 of the Commission's Rules of Practice, that the petition of the State of New York, by and through the Director of the Office of Atomic and Space Development, is granted and the State of New York is hereby permitted to become a party and to participate in this proceeding.
