Honorable Jacob K. Javits
United States Senate

Dear Senator Javits:

I am pleased to transmit the enclosed responses to eight letters regarding the safety of nuclear power plants under construction or planned by the Consolidated Edison Company, which you recently referred to the Atomic Energy Commission.

These letters are furnished with appropriate attached material in the event you wish to forward them to individuals concerned. The two letters from Mrs. Lawrence Schecter are answered in one response, and the letters from Thomas Grabell dated May 2, 1969, and Dorothy Samuels dated April 30, 1969, are answered in one response since their inquiries are similar. We are unable to comment on a letter from Shellah Tilbrooke of New York City, dealing solely with fossil-fueled plants.

If you desire further information, please let me know.

Sincerely,

S/C. L. Henderson

Harold L. Price

Director of Regulation
